Reactive Guidance

23 March 2017

Interpretation Request

Are annual surveillance audits as required in RSB-PRO-70-001, clause H1.4.1, referring to a 12-months period or to the calendar year?

Reactive Guidance

The first annual surveillance audit is to take place within 12 months after issuance of the certificate, the following surveillance audits within 12 months after the previous surveillance audit. A flexibility of 3 months may be granted if the requirements as described in clause H3.5.2. (1.-4.) in RSB-PRO-70-01 are met.
